

# WHAT IS DIGITAL GENDER-BASED VIOLENCE?

Acts of gender violence committed, instigated or aggravated, through the use of Information and Communication Technologies (ICT), social media platforms or email services.

## TYPES OF DIGITAL GENDER VIOLENCE

- Control and manipulation of information
- Dissemination of intimate photos or private information
- Surveillance
- Harassment
- Hate speech
- Extortion

## WHAT CAN WE DO?

We recommend that you document the aggression received, in order to be able to identify the aggressors and/or file a complaint or report.
