DEAW – 2º DAW

Installing VirtualBox and creating its installation user guide

Task. Implement the following steps:

<u>Step 1</u>. Download the VirtualBox virtual machine. You can download it from the following URL:

https://www.virtualbox.org/wiki/Downloads

<u>Step 2.</u> Install, step by step, VirtualBox software and create a user guide for the installation at the same time. You should include some screenshots of the installation and describe what the user has to do in order to install the software. The following contents are compulsory in the user guide:

0.- A cover page, an index of contents and numerated pages that must be included in the index.

1.- Introduction. This point must describe what is VirtualBox and the problem that it solves.

2.- System Requirements. The document must indicate the architecture, the operating system supported, and how to download VirtualBox.

3.- VirtualBox Installation. This section has to describe how to install VirtualBox and include some screenshots. A caption must be added in each image and cited in the text. Here you are an example:

There are a lot of amazing places in the world. One example of this is Sierra Nevada. It is a mountain range in the region of Andalusia, in the province of Granada in Spain. Figure 1 shows its beauty.

Figure 1. Sierra Nevada

Deadline: 5th of October until 11:55 p.m. (23:55h).
